There's no secrets left between us  
When we kissed it didn't matter who'd see us  
No one at all  
But tonight were not together  
I don't want to keep tossing and turning  
I miss u that's all  
And I can't stop thinking' about you  
And I cant start letting you go  
You are still on my mind  
It's so easy to love you  
I've got only one desire oooh baby  
You are still on my mind  
And i cant help but wonder  
If you could love me one more time  
Take my loneliness and break it  
Every song brings back sweet memories Of love  
Or was it real love?  
Because tonight were not together  
And I don't want to keep tossing and turning  
I want u to call  
'Coz I can't stop thinking about you

And I can't start letting u go

You are still on my mind

It's so easy to love you

And I'm wanting u more than ever

You are still on my mind

And i cant help but wonder

If you could love me one more time

You are still on my mind

It's so easy to love you

I've got only one desire oooh baby You are still on my  
mind It's so easy

to

love you I've got only one desire oooh baby You are still  
on my mind And i

cant help but wonder If you could love me one more  
time

oooooh
