who would have thought, that i'd be lost in your charm.
i took the time to realize you make up for what i'm
not, after everything that you've said to me and how
constantly you sweep me off my feet.

you make me smile and you dont have to try, you dont
have to try

chorus: ILY cause IDK you're special in that kind of
way, i LOL when you're around you dont have to make
a sound, and OMG now you're with me how could i be
so lucky, and BTW, ILY means i like you
this time around my walls came down,
im ready to let you in my life,
the tables have turned, now it's my turn to have an
amazing guy, my friends are noticing and they are all
commenting, this is how it's all supposed to be,
supposed to be

chorus: ILY cause IDK you're special in that kind of
way, i LOL when you're around you dont have to make
a sound, and OMG now you're with me how could i be
so lucky, and BTW, ILY means i like you
