Do nothing but cry  
Day and night  
In a narrow space between past and future  
Your memories will stay unchanged  
Even if you turn them into beautiful lies... you're all  
alone

Your tears flow  
Into an unlimited nocturnal sky...  
Once more  
Oh my Dahlia  
Your heart filled with sorrow  
Turns into an unfinished number of stars

You don't know where  
You're going to  
In distress you have deploy your wings of loneliness  
Beyond an ocean of tears

You'll see blue sky  
Even in a shapeless dream  
Refugee on the tomorrow's winds  
Flap your wings... now

Time after time  
You try to find yourself  
In the time which passes  
You carry unchanging injuries  
Which flutter in winds of oppression

Dream on your left  
Dead on your right  
Embrace the blue night  
Question your tomorrows  
In your heart filled with contradiction... dead or alive

In a second long like eternity  
Your tears won't flow  
Two times  
Oh my Dahlia  
For whoever has scars in their heart

The rain streams

Time after time  
In the nocturnal sky  
You question why are you born  
Until your endless river of tears  
Shines with a brilliant gold color

The icy wind blows  
The birds what can't fly  
Carry each one of your dreams  
Into the daybreak's sky

Destiny  
Alive  
Heaven  
Love  
Innocence  
Always  
Destroy  
Aftermath  
Hell  
Life Infinite

Time after time  
You cry in reality  
The passing time stops  
Miracle of sheded tears  
The flowers of your illusions will open out
