I distress you for my own pleasure
(my feeling reach the climax)
you're gonna scream and you lose your head
(hey you! you are so neat)
now I know that you've done so dirty to me
I didn't wanna believe it, but it's true no! it's true

I've lost all and I'm at my wits end
(you've done nothing for me)
you betrayed me broke my heart to pieces
(you said "you can trust me")
I found that you'd be gonna take my own life
I didn't wanna believe it till the end, till the end

My brain was exploded, blood is flowing backward
I can't tell wrong or right
I'm gonna go my own way, gonna fight on my way
force
no matter what you say (go ahead)
my mind go mad I'm ready for attack
I'm gonna bite your ugly heart
I never forgive who's gonna disturb me
after all I find my way to live
I distress you for my own pleasure
(my feeling reach the climax)
you're gonna scream and you lose your head
(hey you! you are so neat)
now I know that you've done so dirty to me
I didn't wanna believe it, but it's true no! it's true

My brain was exploded, blood is flowing backward
I can't tell wrong or right
I'm gonna go my own way, gonna fight on my way
force
no matter what you say (go ahead)
my mind go mad I'm ready for attack
I'm gonna bite your ugly heart
I never forgive who's gonna disturb me
after all I find my way to live
