The crowd defies the turbulence
I guess they're coming to the chorus now
I really hope they're better this time
'Cause we use to see them through somehow

Remote is what they get from me
I keep my distance trying to believe
Believing is the key they say
To live your life your way

I've been watching how they do know
Working overtime for you now
Always ready on standby
Can't believe how hard they try

There's no time for disagreeing
When the scene is so deceiving
Something's lost and nothing's gained
This is my final say

It's hard to be the last to show
Anticipation is so hard to see
If you know don't let it show
Think it over and come back to me

When it's over, when it's done
We'll be together, we will be as one
I feel that I'm back on thin ice
When I look into their eyes

I've been watching how they do know
Working overtime for you now
Always ready on standby
Can't believe how hard they try

There's no time for disagreeing
When the scene is so deceiving
Something's lost and nothing's gained
This is my final say
