

Samestate "Hurricane"

Visit "[Hurricane](#)" on MotoLyrics.com

The tide has turned around
We're washing away
With thunder and rain
You'll be back again

It's getting hard to believe
And even harder to see
That you could love
Those like me

Cause what did I really do
To deserve a love so true

Now all at once
Heads are spinning faster like a hurricane
Cause all we did was nothing but a love still came
And it's bringing in good news
Love is coming back for you

So what if I never cared
But now I do
With only hours left
How is it I still can choose

Cause what did I really do
To deserve a love so true

Now all at once
Heads are spinning faster like a hurricane
Cause all we did was nothing but a love still came
And it's bringing in good news
Love is coming back

For all of us
Who have a hard time getting it through our brains
That all we did was nothing but a love still came
And it's bringing in good news
Love is coming back for you, oh
For you, oh

Cause what did we really do

I don't get it
Oh what did we really do
I don't get it
Oh what did we really do
Sometimes we don't have to understand

But all at once
Heads are spinning faster like a hurricane
Cause all we did was nothing but a love still came
And it's bringing in good news
A love is coming back

For all of us
Who have a hard time getting it in through our brains
That all we did was nothing but a love still came
And it's bringing in good news
That love is coming back like a hurricane
Like a hurricane
Like a hurricane for you

Oh love is coming back for you

Thanks to feel
