Now that you're older and girl I'm older too (yeah yeah)

Baby I'll still have those feelings, those feelings for you

Cos you are all that matters to me

You're all that matters (all that matters to love)

You're all that matters to love

(all that matters to me without your love where would I be?)

Yeahhhhhhhhh oh oh oh

(baby it's a life time)

Where would I be? Where would I be?

(baby it's a life time)

Girl can't you see, I'm so close to surrender

This lady has changed, from the girl I remember

Now you're all that I could ever dream and more

This is a lifetime of love I'm so sure

Cos you are all that matters to me

You are all that matters to love

You are all that matters to me

Without your love where would I be

Baby I found mmm, a dream that's making me stronger  
(making me stronger)

I've looked and I've realised, that noone's taking me

from ya

Now you gave me more than all my dreams come true

Where would I be now baby without you?

Cos you are all that matters to me

You are all that matters to love

You are all that matters to me

Without your love where would I be

Cos you are all that matters to me

You are all that matters to love

You are all that matters to me

Without your love where would I be

Now you are all that I could ever dream and more

And baby you know that this is a life time of love I'm  
sure

(baby it's a life time)

Life time of love

(baby it's a life time)

You know that baby it's a life time (baby it's a life time)  
of love

(baby it's a life time)

It's a life time of love

Cos you are all that matters to me

You are all that matters to love

You are all that matters to me

Without your love where would I be

(Repeat To Fade)
