Making my way through old photographs  
Of the night when you first stood by my side  
Old friends with smiles some are here some are gone  
Good memories of our senior high  
Looking back we're the only couple still together  
Even then I knew this love would be forever, I knew  
Coz there's nobody else in the world that could love  
you  
Any more than I do, always here for you  
Nobody else in this world could love you more  
Nobody could love you any more than I do  
I'm still here for you  
Our lives have all changed we've come a long way  
Our faces show the lines of two young sons  
And in their houses there will be pictures  
Like the ones of you and me  
Hope they can look back and smile just like we have  
done  
Never once have I ever felt the need for another  
We were strong and survived the storm in time to  
discover  
To discover one another

(chorus)

All of the smiles we have won

Jjust from looking back and reliving all the good times

And when we've been through all the pages

We just start again, we just start again, oh

(chorus
