Come on, come on, come on, come on, take that and party

Come on, come on, come on, come on, take that.

Every part of you makes me feel

That I've gotta touch you you know

If only you knew what's in my mind

I can't believe this girl

Whoa, whoa,

Come on, come on, come on, come on, take that and party

Come on, come on, come on, come on, take that.

Don't catch the fall when I play real hard

You'll never stop all my games

If you only knew what's in my mind

I can't believe this girl

Whoa, whoa,

Come on, come on, come on, come on, take that and party

Come on, come on, come on, come on, take that
