The clock blinks six, it burns my eyes
And every day it's hard to rise
Your photo there swims into view
I wonder do you see me too

At ten oh three I've got to go
You knew I would, oh did you though?
We'll get more time together in
Save a spot for me Pumpkinn

Don't laugh at me, I'm still a child
Don't cry for me when I'm defiled
There wasn't much here anyway
That hadn't seen a better day

And ten oh three will make us smile
A front row seat and center aisle
Together now, we'll love and win
Save a spot for me Pumpkinn

They say I'm cute and smart and sweet
And much too young for such a feat
They'll understand, but not at first
Before the night they'll know the worst

It's been a year, five weeks and some,
And since you've left my soul is numb
They've said I'm getting better now
I'll fool them til this final bow

The ten oh three comes big and fast
But Amber says she'll share the last
Can't wait no more, we're stepping in
Save a spot for me Pumpkinn
