Take me away, away from here  
Take me away, away from here  
We have been good enough to go  
We have been good enough to go  
Have we been good enough to go?  
Have we been good enough to go?

Take me away, far away  
Take me away, far away  
I know it's in you  
You know it's in me  
I've seen it in you  
You've seen it in me

We might be wrong, we might be wrong  
We might be wrong, we might be wrong  
We might be right, we might be right  
We might be right, we might be right x 2

But the other side.
