"Tears"

Visit "[Tears](#)" on MotoLyrics.com

Big tears fall down like puddles
When something cuts it bleeds
Big storms leave towns in rubbles
The shore just recedes

It takes some time to secure a stream of water to
recover
Crying is a way to know
Your tears will help you learn and grow so better off to
let it flow
Stains your cheeks will come to know

Heartache and hopes for healing through the raining of
your tears
You'll learn the pain your feeling
It takes some time to secure a stream of water to
recover
Crying is a way to know
Your tears will help you learn and grow so better off to
let it flow
Stains your cheeks will come to know

Tears, tears, tears, tears, tears, tears, tears
Tears, tears, tears, tears, tears, tears, tears

There may not be more than one of you
Appearing to be by your side
But if the ones you still loved were here
You'd fight against time

It takes some time to secure a stream of water to
recover
Crying is a way to know
Your tears will help you learn and grow so better off to
let it flow
Stains your cheeks will come to know

Tears, tears, tears, tears, tears, tears, tears
Tears, tears, tears, tears, tears, tears, tears
