You were touched by love  
You were touched by sin  
It didn't matter to you  
You still let me in  
Chorus :  
I live my life to be with you  
I wanna live like lovers do  
Yeah baby  
Baby it's you  
I'm alone here  
While time flies by  
I know that someday  
You'll be by my side  
Nothing's forever  
Except you and me  
We'll go on together  
Cause you've all that i need  
Chorus  
From the first day i knew  
It could only be you  
Your world is pefection  
My world is on fire  
I can see my reflection  
In the glow of your eyes  
If you want me today  
If you want me tonight  
There's only one thing to do  
Say, you're the one i desire  
Chorus
