It's dark and eerie  
And it's really late  
Come on kids don't hesitate  
We're going down to the underground  
We're going down we're going down  
To the underground  
Dagger glares from richard hell  
The hades ladies are dressed to kill

Tension heightening heating frightening

Thunder rolls as fast as lightening  
If you've got the urge  
The subterrene is a bottomless pit  
Come on let's submerge  
The vinyl vultures are after it  
Moulten lava sulphur vapours  
Smoulder on to obligerate us  
If you've got the urge

Come on let's submerge
