Sophia look like a witch  
A beautiful witch is she  
Sophia look like a witch  
Hidden form in the name of chastity

Sophia wears a crucifix  
Christ hung round her neck  
Sophia wears a crucifix  
Crucifix effect

Sophia lies between black sheets  
Between black sheets she rests  
Sophia rises while the cock-a-doodle-doo's a calling  
And in black robes she's dressed

Sophia look like a witch Sophia look like a witch (repeat)

Sophia rises while the cockerel's mourning  
As the sun sets in the West  
Sophia is a mother with a child at her breast

Sophia look like a witch Sophia look like a witch (repeat)
