Let's get down, let's get down

You claim, you've been waiting  
With no game, just anticipating  
How it would be if you and I were in the sack  
But to me you look like you wouldn't know how to act

I need someone to hold me, all night long  
It must be you my darlin', am I wrong  
It ain't a damn thing baby, show me what you can bring  
'Cause some try to swang but they still can't hang

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You claim you can do this, this and that  
Ain't no shame in my game  
If it's wacky, I gotta tell you that

So you betta be up on your down stroke  
You gotta know how to keep this boat afloat  
'Cause in my mind I think your gonna slip, baby

I need someone to hold me, all night long  
It must be you my darlin', am I wrong  
It ain't a damn thing baby, show me what you can bring  
'Cause some try to swang but they still can't hang

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You talk a lot of this and you talk a lot of that

Is it all fact brotha man are you fat?  
'Cause if it's on the real I come with mad sex appeal  
Flip light delicious, you know the deal

Hey that's me, I be the slick  
The one with the physique  
I freak you in the sheets

I take a nigga deep down under  
I make him wonder  
How to make the lighting come before the thunder

That's the pleasure I bring  
I make a nigga get up and sing, tinga, linga, ling, ling  
I got the pow, da boogie and the bang bang  
You can't hang don't talk da game

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You and me let's get down  
Even though you claim that you've been around  
I betcha can't hang, I betcha can't hang

You and me, you and me
