I got something for you  
And I think you're sexy  
And if you want me let me know

You ain't gotta spend no money  
Just a little time with me honey  
That will let me know you love me so

There are so many things  
I want to talk to you about  
Like do you want me, do you love me?  
'Cause I have my doubts

I have a funny feeling  
That you want me around for just one thing  
To push your little ego  
With the knowledge that I bring

I got something for you  
And I think you're sexy  
And if you want me let me know

You ain't gotta spend no money  
Just a little time with me honey  
That will let me know you love me so

You know that I want you  
And I made it very clear  
I would never ever hurt you  
I'd never let you shed a tear

And the only thing I want to know  
Do you feel the love for me  
I'm not gonna keep on waiting  
That's not how it's gonna be  
You got to

Let me know  
I never knew that love could ever have me slipping  
Let me know  
I sit in my room and think of you at night trippin'

Let me know  
I never knew I would ever get caught caking  
Let me know  
And no man would ever have me shaky

I got something for you  
And I think you're sexy  
And if you want me let me know

You ain't gotta spend no money  
Just a little time with me, honey  
That will let me know you love me so

I got something for you  
And I think you're sexy  
If you want me let me know

You ain't gotta spend no money  
Just a little time with me, honey  
That will let me know you love me so

Let me know, let me know  
Let me know, let me know

I got something for you  
And I think you're sexy  
If you want me let me know

You ain't gotta spend no money  
Just a little time with me, honey  
That will let me know you love me so

I got something for you  
And I think you're sexy  
If you want me let me know

You ain't gotta spend no money  
Just a little time with me, honey  
That will let me know you love me so

I got something for you  
And I think you're sexy  
If you want me let me know
