That you been sleeping and you creeping baby
That you been creeping and you sleeping baby um
It's Friday night and I been freaking out
Nine hundred times I know I called your house
So many times your mama cursed me out
But I'm not sorry
Saturday morning and I ain't slept at all
I smelled her perfume and your alcohol
They say that you and her had had a ball
Don't you dare lie to me
I know I'm getting the runaround
I know that you sleep around
So don't try to play it down
I know you're giving me
I know she's giving me
I getting the runaround
I know that you sleep around
So don't try and play it down
I you're giving me
I know she's giving me
I grabbed my keys and I jumped in my ride
I might be hurt but I ain't gonna cry (not gonna cry)
Just wanna find out what you did last night
Before I leave you
Oh, I found her number and I know her name
I gotta find this girl make her explain
I can't believe she dipped into my thang
Yes, she's guilty, oh yeah
I know I'm getting the runaround
I know that you sleep around
So don't try and play it down
I know you're giving me
I know she's giving me
I getting the runaround
I know that you sleep around
So don't try and play it down
I know you're giving me
I know she's giving me
It took a lot for me to give you all my loving
And just to think I gave you everything for nothing
I tried my best to satisfy you

All the times I stood right by you
I think that I'll do better on my own
Oh yeah, baby
I know you're giving me, I know she's giving me
That you been sleeping and you creeping baby
That you been creeping and you sleeping baby
I'm getting the runaround
I know that you sleep around
SO don't try and play it down
I know you're giving me
I know she giving me
I'm getting the runaround
I know that you sleep around
So don't try and play it down
I know you're giving me
I know she's giving me
Now I can't believe that you did this to me
Boy you better leave
I know you're giving me, I know she's giving me
You go tell what's her name that it isn't a game
Boy you messed up, you lied
I know you're giving me
I know she's giving me
I know I'm getting the runaround
I know that you sleep around
SO don't try and play it down
