Born out of your mouth
with your kiss my system formed
star breath congealing
Born out of your mouth
in your words
my birds will soar
Egg newly laid, tumbling sweet south
Three minutes maid, fresh bread
born out of your mouth
Smile
Grown out of your gaze
one a vine your fine hands tend
I'll bear you good fruits
born out of your gaze
in your glance my dance will spin
Egg newly laid, tumbling sweet south
Three minutes maid, fresh bread
born out of your mouth
Smile and you cause me to exist
Frown and DNA would untwist
Egg newly laid
Smile and you cause mt to exist
