I'm heading into the atom age  
My contemporary house is all the rage  
My wife's getting lazy going gadget crazy  
Wants a pallette shaped coffee table and a matching  
settee  
I'm heading into the atom age  
My kids have gone obscene want to marry at fourteen  
Want a pallette shaped coffee table and a matching  
settee  
I'm heading into the atom age  
I flick on the video to soothe me  
It's better colour than the real thing!  
I relax to a three D porno movie  
Hey does anyone remember what ever happened to  
string?  
I'm heading into the atom age
