Oh, I need protection

Nothing is safe and  
Nothing is truly sacred  
If you want to stay alive  
Keep your body from the undertakers

Sing out  
Oh, I need protection

Have you ever had a threat?  
Have you ever had, stare?  
([Unverified], pause to make)  
You can see it on TV  
From the pleasing safety of your armchair

Sing out  
Oh, I need protection

When it slap you in the face  
Will you take, to consider  
(Down, [unverified])  
What will you do  
When he says to you, stand, deliver

Will you take to your heels  
And fight to brazen your features  
Yeah, it won't go away  
With just one click of your fingers

Sing out  
Oh, I need protection  
Protection
