What if I went out With another girl Where no one ever
goes And what we did and said No one really knows
And you will wonder Late at night While lyin' awake in
bed Of what we did and said Yeah you will wonder If I
really care Yeah you will wonder What we did alone out
there What we did alone out there Where no one ever
goes And what we did and said No one really knows
And you will wonder Late at night While lyin' awake in
bed Of what we did and said Yeah you will wonder If I
really care Yeah you will wonder What we did alone out
there
