Can you see me smiling? I'm so happy I've got me a girl
to call my own She's so young and pretty Don't ever
want to leave her alone She's got to be my baby Oh I
love her so We do so many things together Don't ever
want to let my baby go Oh but if she wants to go I'll let
her do what she wants but I just don't know Because I
love her so Oh yeah I love her so Yeah I love my baby
she makes me feel alright I'm gonna love my baby
everyday and every night She's got to be my baby Oh I
love her so We do so many things together Don't ever
want to let my baby go Oh but if she wants to go I'll let
her do what she wants but I just don't know Because I
love her so Oh yeah I love her so Can you see me
smiling? Can you see me smiling? Can you see me
smiling? Can you see me smiling?
