Do you ever feel like
The sky's falling down
All around you

Stars won't shine
Cuz things ain't right
With the man in the moon

Do you ever feel like the world's
Slipping right through your hands
And all you ever wanted to do
Was climb up on the roof and

Shine
Even though the stars
Aren't smiling on me tonight

I won't let the darkness steal my light
Cuz the sun and I
Are gonna part the clouds in the sky

And shine
And it won't rain no more on me
It won't rain no more on me

Do you ever take the time
To take off your shoes
Walk barefoot through the grass?

It's a simple gift
When everything is moving so fast

And all I ask
Let's make a toast
Fill up my glass with life and hope
And give me one good reason
Give me one good reason to

Shine
Even though the stars
Aren't smiling on me tonight

I won't let the darkness steal my light
Cuz the sun and I
Are gonna part the clouds in the sky

And shine
And it won't rain no more on me
It won't rain no more on me
It won't rain no more on me
No, not on me

They say in each life a little rain must fall
But I will carry on and make it through it all
They say in each life a little rain must fall
But I will carry on and make it through it all and

Shine
Even though the stars
Aren't smiling on me tonight

I won't let the darkness steal the sunshine
Dim the spotlight on my life
Cuz the sun's always been a friend of mine
And he and I are gonna part the clouds in the sky

And shine, shine, shine
And it won't rain no more on me
It won't rain no more on me
It won't rain no more on me
Not on me
