Come On.....

She holds his hand and she knows  
That he will never let it go  
She is his everything  
She strokes his face and she knows  
She'll let the love shes feeling show  
He is her everything

Live a little learn to love alot  
Give a little give it everything you've got  
Love to be needed  
Love not to be loved  
Live a little learn to love alot  
Give a little give it everything you've got  
Love to be needed  
Love not to be loved  
So give me that love  
Give me that love  
Give me that love  
Love not to be loved
