"Roll The Dice"

Visit "[Roll The Dice](#)" on MotoLyrics.com

Slow down sir
how you gonna move and ask her
isn't life a cruel laughter
everybody is pretty mixed up mixed up
and ok chances
give us all a break and conquer
all your demons

play cool
but not sober
play the fool
but don't control her
cuz all this time you've done so well
and rush in with a lie
you know we'll die

My way love
you'd roll the dice my way
Roll the dice
you'd roll the dice my way i know
guaranteed to save the day
just roll the dice just roll the dice just roll the dice my
way

still the trance set
was going around your brain to fool you
if you're living in that age of voodoo
you maybe miss your train
its late its late

to dream of something
is better than a leaf of nothing
so take your seat
and play cool

but not sober
play the fool
but don't control her
cuz all this time you've done so well
and rush in with a lie
you know we'll die

My way love
you'd roll the dice my way
Roll the dice
you'd roll the dice my way i know
guaranteed to save the day
just roll the dice just roll the dice just roll the dice my
way
My way

so you roll the dice for time and all its answers
and you roll the dice for truth and all its partners
and you roll the dice for love and ever after
and you roll the dice for driving, for climbing, for your
life

will you roll the dice for me (4x)
would you roll the dice for
would you roll the dice for me (2x)
did you roll the dice for
did you roll the dice for me
did you roll the dice for....
