[Verse 1: XV]

I could never find my car keys and I have never pulled  
a map out  
And the closest that I get to the outside world is my  
desktop background  
But I done got all dressed up since I stepped out and  
impressed ya  
It's sad when ya homeboys text ya saying  
If you come, we won't ask ya till next month  
What a loner, owner of my sofa  
Controller of my life with my remote controller  
Outta this world, how am I solar?  
Message in a bottle, lemme finish my soda  
Calls coming through but my phone ignores it  
The world's outside, won't you go and explore it?  
Yo, what them girls came for? Go for it, one-two-three,  
now forfeit

[Hook]

I was just about to come out of my room  
I was gonna turn off my X-Box too  
I was gonna step out the whip in a fresh outfit  
And then I went and thought about you  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind, never mind, never mind

[Verse 2: XV]

Why be saying never mind? Walking it with girls that is  
never mine  
She find a new side, I mean she hella fine and I be  
like I holler at another time  
What a loser, abuser of my computer  
Open up the windows through windows and watch it  
boot up  
Playing Tekken Six as long as I get Kazuya  
Damn, I swear I used to seem much cooler  
Used to step out fresh to the party world  
Wasn't into her but she was such a Barbie girl and  
all she wanna do is go out  
I wanna stay in and she gonna show out

Roll with an entourage like my name was Ari  
Come on, bounce around like pong in Atari  
It's funny how they use to have parties and call me  
Coat checks turn to rain checks, I'm sorry

[Hook 2]

I was just about to come out of my room  
I was gonna turn off my X-Box too  
I was gonna step out the whip in a fresh outfit  
And then I went and thought about you  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind

[Bridge: XV]

I was like I'mma be gone so long, I forget what my  
home look like  
I was like I'mma sit in traffic,  
just blasting my music while I chill in my ride  
I was like I'mma see the girl of my dreams and this  
time, I'mma say hi  
I was like this close to supposed to thinking I might,  
huh?

[Hook 3]

Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind, never mind, never mind,  
never mind  
Never mind, never mind
