[Verse 1: XV]

I'm just asking for cats with passion and is there any left?

Action and cameras flashing, I ain't getting any rest  
When I'm unrecognizable, I'm still undeniable  
They just feel my presence and say that's that n\*gga X  
Yes and please do not confuse it  
I got A.D.D so I'm the meaning of a movement  
N\*ggas try to improvise while I try to improve it  
Take a look inside just so I can outdo it  
Nice on the mic but I make the meanest music  
If they call it garbage, I swear I'm making the cleanest sewage

If my flow was in a purple top, the veins would probably lose it

The jocks would try to juice it and nerds would try to fuse it

Tired of trying to make these labels understand  
That I'm the whole package like your mail's already ran  
Stay sonning rappers, hope these faggots need a tan  
Call me Adam 'cause you know I'm the man

[Hook]

Right hand in the sky, I put this on the Bible  
I'mma fly high 'cause I am undeniable  
This is indescribable, take it where you got to go  
And I just thought that y'all should know  
My right hand in the sky, I put this on the Bible  
I'mma fly high 'cause I am undeniable  
This is indescribable, take it where you got to go  
And I just thought that y'all should know that I am undeniable

[Verse 2: XV]

I make my entrance on that ramp  
And all I wanna do is see they hands  
I consider you fans Whoops, N and M are so close together  
I meant to say I consider you fam  
But I'm so out there, just to conversate, you need to stamp

Life is real, even for a cell phone you need a plan  
But what I really am, most people don't understand  
So I end up becoming spam, get it?  
Oh my lordy, pushing 40, will I quit it or end up like  
Randy the Ram?  
My son doesn't visit, the glory years are distant  
Until a little kid says look, that's the champ  
I try to see what they see, I get it, you hear music  
everyday  
But you can not hear my tape and say that my shit is  
not crazy  
20 mixtapes later, I am still not lazy and red lights still  
don't break me

[Hook]

[Outro]

'Cause I am undeniable, damn it's indescribable  
And I got a lot of hope that everybody got to know  
My victory lap, I look back like where my rivals go?  
Almost lost my way but today, I'mma find it yo  
'Cause I am undeniable, damn it's indescribable  
And I got a lot of hope that everybody got to know  
My victory lap, I look back like where my rivals go?  
Almost lost my way but today, I'mma find it yo because  
I am undeniable
