[XV - Verse 1]

Yeah, they tell you "never say never", cause forever's a fact

They tell you, never say n-gga to a dude who aint black
But if the connotations change to a n-gga being my man

Than why can't I just call a dude who is just that?
And I never said "Dad", NO, never said those words
Never felt the urge, never felt he deserved
Never been scurred so I never been scared
I only speak truth so I never said "dare"
Never said "No". Always said "yeah"

My n-ggas kept toast but they never said "cheers"
Never said "different" Never said "wierd"
Cause I hated being called that

Than they said "square" and I caught that
Never said "give up" dog, i fought back
Never said "quit, couldn't, won't" and all that
Never said "lend me" Never said "Give me"
I never said "remember" cause you never could forget me

To all the girls I've hurt and never said "forgive me",
Forgive me!

Never said "game", never said "pimpin"
Never said "I do", unless I promise I will
So I've never been married, not scary thats just my deal

Never said "hate" cause love is all that I feel
Always been authentic so never felt to say "I'm real"
Never told my Old G "N-O", no!

No matter what it is, I got 'em to the end yo
Never said van I've only said fam?
Never said I'll sit down, never said I ran
Always say "go for it" and never said "stop it" if my
momma need anything I never said I don't got it

[Chorus - x2]

These are words I never said, said, said, said
These are words I never said, said, said, said
Nah, I don't speak 'em
And I don't try to teach 'em

People try to say 'em
But I just don't believe 'em

[XV - Verse 2]

"Bitch, ass, snitch, p-ssy, fake f-ck"
Never say that round my hood unless you tryna lace up
Never said "bum", while people losing jobs, pay cuts
Never said "crackhead", just a lost soul blaze up
Never said "surrender", never gave information
Never raise my right hand, never entered the station
Never said "freeze", never said "halt"
Cause we never played cops on the block that I was
taught
Never said "end a life", never said "in your life"
We say walk out on death and then we enter life
Never said fame was worth it, I just said get a price
Never said "Loser", lasers because we give 'em life
Never said "I'm the best", always room of improvement
Never said I was next, just one of the ones to do it
"Sell out faggot won't make it and hope that n-gga
dead"
Don't believe, I wish it, I promise these are words I
never said

[Chorus - x2]

These are words I never said, said, said, said
These are words I never said, said, said, said
Nah, I don't speak 'em
And I don't try to teach 'em
People try to say 'em
But I just don't believe 'em
