"Get Well Soon"

Visit "[Get Well Soon](#)" on MotoLyrics.com

I knew I was sad
I recognised it was bad
But now looking back
I see my mind it was cracked.

Crying to the gardener
Under white in the street hot with grief
Begging please don't cut my trees
Please don't take my trees

Go help someone
Get them well someone
Sleep by their side someone
It just takes time

I knew I was sad
I recognised it was bad
But now looking back

I see my mind, it was cracked

Crying to the gardener
Under white in the street hot with grief
Begging please don't cut my trees
Please don't take my trees

Go help someone
Get them well someone
Sleep by their side someone
It just takes time
It just takes time

Get well soon, get well soon
I was once just like you
Get well soon

Get well soon, get well soon.
