never thought this heart would break
no news I couldn't face
then you took my breath away
With your goodbye

Never dreamed I'd miss someone like this
Feel like I'm dying from a goodbye kiss
Now I wonder how I'm gonna live
With your goodbye

Chorus

All of a sudden out of the blue
We were together now we're through
I've got some tears don't watch me cry
I won't be the same with your goodbye

I'll keep your smile here in my mind
Will be until the end of time
This love won't simply fade
With your goodbye

Chorus

All of a sudden out of the blue
We were together now we're through
I've got some tears don't watch me cry
I won't be the same with your goodbye

With your goodbye
With your goodbye
With your goodbye
I believe in memories
And pray somehow we both find peace
you'll always be a part of me
With your goodbye
