Savageland, another time, another world, where under a cold blue sun, the evil Duke Kron, half brother of the murdered ruler of Savageland, seeks to deny the rightful heir - Braveheart, his destiny.

Duke Kron cannot do this until he has found and extinguished the mythical dragon Moroth, who guards the Shield of Darkness (a force for good or evil to whom whoever possesses it).

The Duke must keep Braveheart from finding the shield. He therefore sets out to destroy Braveheart and all men of good heart by using his dark legions of damned souls, all what have been put under the spell of the Blue Flame, which the Duke keeps burning by the rare ore that is dug by the slave children in the underground mines. As events unfold Elenor, Braveheart's daughter, is accidently killed by himself, while trying to summon mystic forces against the Duke.

Braveheart, swears vengeance! The Duke must be stopped!
To save SAVAGELAND!
