Say my name
say it load
say it just to me
say it once say it twice
but then disappear
cause I say and I pray
that you always be the one
always swear 2x
that it is so true
that I miss your sweet kiss
an the rendevous
could I say and I pray that you always be the one
say it again
I miss you baby
say it again I drive you crazy
say it again please stay with me
cause if you will call call my name
baby this love will never end
you cannot ignore I love you more
more and more
cause if you will call my name
oh again again and again
I cannot ignore
I love you more
more and more
oh I know oh I know
that my time will come
and I pray just to got you missing like the sun
cause I know just for sure
that you always be the one
it's my time it's a place
where I wanna go
take this chance for romance
no I know it won't
cause I know oh I know
that you always make me strong

Refrain:

say it again
I miss you baby
say it again I drive you crazy

say it again please stay with me
cause if you will call call my name
baby this love will never end
you cannot ignore I love you more
more and more
cause if you will call my name
oh again again and again
I cannot ignore
I love you more
more and more

Yeah it's Pietro style
cause if you will call call my name
baby this love will never end
Cannot ignore
I love you more
more and more
more and more
more and more
more and more
