Flying high
Building up
Paralyzed armies
Making sure nobody
Sees that we're falling

Breathe in breathe out
Beware be proud
Well I can't do that no more
Well I can't do that cos

No I don't wanna keep on keep on
Walking with my feet on feet on
This broken ground
I'm tired of looking down
And I am gonna stay here stay here
Making my own way here way here
You can go on now
Walking back on your own now
Walking on broken ground

My mistakes
Your mistakes
All it takes baby
All I see is
Broken hearts
Everywhere

We don't love we lie
We walk we don't cry
Well I can't do that no more
No I can't do that cos
baby

I don't wanna keep on keep on
Walking with my feet on feet on
This broken ground
I'm tired of looking down
And I am gonna stay here here
Making my own way here way here
You can go on now

Walking back on your own now
Walking on broken grounds
I'm walking on broken grounds

I don't wanna keep on walking with my feet on
This broken ground
I'm tired I'm looking down

I don't wanna keep on keep on
Walking with my feet on feet on
This broken ground
I'm tired of looking down
And I am gonna stay here stay here
Making my own way here way here
You can go on now
Walking back on your own now

And I am gonna stay here stay here
Making my own way here way here
You can go on now
Walking on broken grounds
Walking on broken grounds
