Everything is turning round and around  
And around and around  
Mythical problems in time and the living sun  
influencing life,  
But she doesn't, but she doesn't decide, she's careless  
Everything is just going on, going on, just as planned....  
Till the end of the century

Merely a few wonder about the vanishing of this world.  
They will turn around, turn around, turn around  
Everything is just going on, going on, going on, just as  
planned.  
What's left behind, what's left behind has nothing to do  
with what will come, with what will come.  
So turn around, turn around, so turn around, so turn,  
turn around.  
Some are born to sweet delight, some are born to  
endless night,  
Mind and matter have no bounds, the poison creeps  
where you cannot reach

Everything is turning round and around and around.  
Mythical problems in time and the living sun,  
influencing life,  
But she doesn't decide, but she doesn't decide  
She 's careless, everything is just going on, going on  
just as planned,  
What's left behind, the spinning round of the essence  
of the source  
It's going round it's going round it's going round  
It's going round it's going round it's going round  
Merely a few wonder about the vanishing of this world.  
They will turn around, turn around, turn around, turn  
around  
Everything is just going fine, under the living sun, it's  
just going fine under the living sun.

Everything is just going on, going on, going on, , just  
as planned,  
What's left behind has got nothing to do with what will  
come, with what will come ,  
What will come, what will come .....
