"The Child in Me"

Visit "[The Child in Me](#)" on MotoLyrics.com

Don't slow me down, just drive me away
The skies are grey today, I look at life that way
So put me on a plane, I may escape the rain
My friends are acting strange, things don't look the same

I guess the child in me, defines the way I see
I guess the child in me, defines the way I see
Miracles

Don't let me down, just live for today
The price is high you say, you look at life that way
So put me on a chain, I will escape again
Living by the book I say, would drive me insane
I guess the child in me, defines the way I see
I guess the child in me, defines the way I see
Miracles come my way

Through the eyes of a child I am spinning round
Through the eyes of a child I will work it out

I guess the child in me, defines the way I see
Through the eyes of a child
Through the eyes of a child
