

Xymox **"Wonderland"**

Visit "[Wonderland](#)" on MotoLyrics.com

Would you come and look around
See the motion and circle round
Feel it whirl through the fields?

All the years we wandered about
And let our youth strip us out
Now lock up the door to indignation

All appears to recover
(Would you come, look around)
(See the motion, circle round?)
All appears to recover
(All the years we wandered about)
(Let our youth strip us out, come with me)

Here we are in wonder left with all
Left to discover
Will you stay, watch by me?

All appears to recover
(Would you come, look around)
(See the motion-circle round?)
All appears to recover
(All the years we wandered about)
(Let our youth strip us out, come with me, break out)

All appears to recover
(Would you come, look around)
(See the motion-circle round)
All appears to recover
(All the years we wandered about)
(Let our youth, strip us out)

All appears to recover
(See the motion, circle round)
(Come with me, come with me, break out, break out)
