Rise

This I call a call to all (4X)
Fill this world with love

A long time ago there came to me a man
He said this land is mine, you work for me now.
I say "no way" we can not take it no longer
Cause I and I know you cant own jah home land

So we rise, like the ocean
Soon we will rise to regain our home land
Fill this world with love

Said we rise to stop the segregationist style
Said we rise to bring up intelligent minds
Think about creating a world with more positive vibe
In this time what we do the choice is up to you

So we rise, like the ocean
Soon we will rise to regain our home land
Fill this world with love

What am I talking
A world with no killin
Some time for some chillin
Let look and lets listen seems something is missin

So we rise
Got to rise

Fill this world with love
Heal this world with love
