Man I'm out of touch with the regular
My brain waves on the same page as a cellulars
I see in hi-D resolution a five G
Revolution with plans and solutions
Check the stations, same conversations
That's old formats leave em at the door mat
Wave files, avi and mp3's
The day is the same as a child learning his ABC's
It's the way of the world goodbye CD's and DVD's
It's 3D inside TV screens
So now I can do anything
Without the kinda luck that a penny brings
Uploaded my music it happend so quickly
Now they at the show singing right along with me
The future is here, I take you there
But you go have to catch me, come and get me

I'm takin' off, takin' off, takin' off
I'm outta here, outta here, I'm gone
You can catch me if you can but I'm gone, I'm gone
We outta here
We outta here

Weightless, I can see the continents
Rollin' in my space ghost, Rolls-Royce rocket ships
I'm bringing back intelligence from space from the
heavens that'll
Take us up into a higher place
Prepare for the equinox infinite possibilities
Eating with the astronauts
Yeah!
I hide my secrets in the sun
That way nobody ever looks directly into the what I was
It's only what I have become
Not a public enemy but still my Uzi weighs a ton
My millennium falcon is flawless
I walk lightyears away from these typical artists
Heartless I ain't got no soul
I just devour everything with them I reach like a black
hole
I'm in your city like a titty full of silicone
Get off that old shit mack black is killin' chrome

I'm takin' off, takin' off, takin' off
I'm outta here, outta here, I'm gone
You can catch me if you can but I'm gone, I'm gone
We outta here
We outta here
