I follow you back home but you're never there
I'd like to say you're the one, but I just don't care
So stay with me right now 'til I forget your charm
And lie with me once more so I can do you no harm

Every time I look into your eyes I don't know what to
say, say, say
Every time I look into your eyes I want to run away-way-
way

Consider me just one of those walking clichés
A violent intervention just won't go away
At least I know you're there with something else to
please
'Cause you're my fine life-drawing lady brought to my
knees

Every time I look into your eyes I don't know what to
say, say, say
Every time I look into your eyes I want to run away-way-
way

Every time I look into your eyes I wonder what to say,
say, say
Every time I look into your eyes I want to run away-way-
way

Every time I look into your eyes I don't know what to
say, say, say
Every time I look into your eyes I want to run away
