I've got a secret on my mind, a secret
Yeah I've got a secret on mind, a secret

Standing with you, already used, I don't want to feel
this way
I know what I do, just with you, it's just one more thing
to do
'Cause I've got a secret on mind, and it's using me
'Cause I've got a secret on my mind

Oh oh, can you fake it?
Oh oh, can you make it?
Oh oh, will you break it?

I'm spinning in to, I'm spinning in to another point of
view
I'm feeling like you, I'm feeling like you, but you want
me to
This thought in my head, this thought in my head,
And I wanted to use you too
I'm feeling like you, I'm feeling like you, but you want
me to

Oh oh, can you fake it?
Oh oh, will you make it?
You'll make it, you'll make it!

I've got a secret on my mind, a secret
I've got a secret on my mind, a secret

Oh oh, can you fake it?
Oh oh, will you make it?
Don't break it, don't break it!
