Five minutes and I think I like you  
You're good, you're delicious  
I want you mixed in my world  
But I want you my way

Sweet lust, I want you all  
Try me, over and over  
Touch me and fill me with your love  
Sweet lust, I want you on  
Try me, slower and harder  
Just eat me all and all night long

You look at me and it scares me  
I'm high, I'm high off your image  
I want you right beside me  
But leashed, to my wishes

Sweet lust, I want you all  
Try me, over and over  
Touch me and fill me with your love  
Sweet lust, I want you on  
Try me, slower and harder  
Just eat me all and all night long
