The closer you are the brighter the stars in the sky
And darling, I realize youre the one I live my life for

My heart skips a beat every time you and I meet my
life, my love, my dear
I cant defeat that yearning deep in my heart to have
only you

When I first saw you, I did adore you any others beware
And then you went away but now your back to stay
And my love for you grows stronger every day

The closer you are the brighter the flames in my heart
And darling, well never part, well always be in love

When I first saw you, I did adore you any others beware
And then you went away but now your back to stay
And my love for you grows stronger every day

The closer you are the brighter the flames in my heart
And darling, well never part, well always be in love
Whoa in love
