"My Mind"

Visit "[My Mind](#)" on MotoLyrics.com

how did you get inside my mind?
you worked your way inside my mind
you tried to poison all my mind
i broke away only to find

you were there in my head
trying to steal me away
and i thought i was weak
but i wont take it anymore

i almost fell because of you
you wanted to trip me up
you hid me away from this world
but i could see what you were doing

so now you're out of my head
i know that i am strong
coz if you follow your friends
you're gonna fall,you're gonna fall again
