Lyrics and Music: Jonas "Joker" Berggren and Marie Knutsen

Deep in the jungle drums are played by hand  
They're sending a message few would understand  
But I do  
Cause like in the jungle of emotions people are getting  
lost  
What is right over time  
What should you tell me  
Deep in the jungle of emotions some things are best  
unsaid  
Hide your past and I stay  
Ref: I want to be your number one  
not one in a stupid line  
You want to tell me who you are  
but baby don't push it too far  
I wanna be your number one  
I do  
Once in my lifetime I'll be standing bride  
Once in my lifetime I will say I do to a priest  
I wanna wrap my arms around you,  
but all the things you've said  
Bring me down even though  
I'm glad you told me  
Something about your past and future  
But enough is enough  
Now I know what to say  
Don't you think we have to work this out  
Do you want me to scream and shout  
Ref.  
Feeling like a stranger  
want you near  
Can we make some change here  
no mo fear  
I'm feeling like a stranger  
aaaaa...  
Ref.  
Now I Want Love  
Pretty baby, come to me, let me be your own  
guiding star  
And then maybe, you will see, that you never  
have been that far

So don't be a stranger, just because I am the  
one in command  
There is no danger, so let me know now where  
you stand  
Ref: Now I want love  
Change my world  
You can make it easy  
Now I want love  
Change my world  
You can make it easy  
It is obvious, your the kind, you don't want to  
lose your selfcontrol  
I'm not modest better tell you now that you've  
become my new goal  
Struggle and fighting, one of these days  
I'm going to win  
There's no denying, I'm prepared to make a sin  
Ref.  
There's a fire inside of me, a strong desire that's  
crying for love  
So you don't have to prove me that  
you are smart right now  
No time for deep conversations  
I wanna touch every part of you and I know how  
Forget your pride and see your inspiration  
Ref.  
Walk around in circles talk about action  
Could it be you, are you a fake attraction  
I don't need someone who will judge my life  
Tell me what to do, shut up and be a nice wife  
Never in my life have I been in this situation  
Wanna heal the world though I lost the destination  
Come to me forgive me if I'm cruel  
Yet this is my game so I'm making the rules
