"Everything"

Visit "[Everything](#)" on MotoLyrics.com

I don't wanna sound selfish
But I've always gone after my dreams
Never planned my tomorrows
And whatever the day may bring
There's so much life in a moment
I feel new every time I breathe
Now I'm changed for the better
There's a new light inside of me
And I trust, what the Universe brings me
Though I have so much to learn
Your love is a path that guides me
A shining star that takes me home
I could drive this road for hours
And I could swim the deepest sea
Just as long you're beside me
Babe you're my everything
Babe you're my everything
Babe I know I'm not perfect
We'll make mistakes along our way
You know it's just human nature
But together we'll be ok
And I trust, what the Universe brings me
Though I have so much to learn
Your love is a path that guides me
A shining star that takes me home
(Babe you're my everything)
I could drive this road for hours
(Babe you're my everything)
I could swim the deepest sea
(Babe you're my everything)
Just as long you're beside me
(Babe you're my everything)
Baby you're my everything
Like the moon that turns into sunlight
(Babe you're my everything)
Shining love is all I see
(Babe you're my everything)
In your eyes I see tomorrow
