There's a thousand ways to tell you
What's weighin' on my mind
On this heart shaped rock at lover's peak
Above the city lights
I take off my jacket, put it around you
And watch you close your eyes

Your hand feels so warm
Like your breath on my face
These words that I have been holdin' back
Have found the perfect time and place

There's only one
Wish I make each time I see a falling star
There's only one
Place I wanna be and that is where you are

There's only one
Man in this world who can love you like I do
You know we only get one life
And I wanna spend mine with you
One

Through the silence all I hear
Is one dry autumn leaf
Falling like my careful heart
Then landing at your feet
I clear my nervous throat
Sit here and hope and pray where this will lead

Once in every lifetime
Someone comes along
I guess I'm trying to say that someone's you
And I know where I belong

There's only one
Thing that's missin' that will make my life complete
There's only one
Time with all my heart I've known what's meant to be

There's only one
Man in this world who can love you like I do

You know we only get one life
And I wanna spend mine with you
One

It feels like more than just the moon
Is shinin' down on us
And the tears in your smile say
You love me as much

There's only one
Kiss I long to feel my lips at night
There's only one
Body that I want to hold until I die

There's only one
Soul I've ever really felt connected to
You know we only get one life
And I wanna spend mine with you

There's only one
Wish I can make each time I see a falling star
There's only one
Place I wanna be and that is where you are

There's only one
Man in this world who can love you like I do
You know we only get one life
And I wanna spend mine with you

There's only one
There's only one
There's only one
