(Wally Wilson/Paul Nelson/Larry Boone)

There's something funny 'bout the two of us
We never fight, ah we never fuss
We just can't get enough if you get my drift
Yeah from what I've heard about love, this ain't it

I make you laugh and you make me smile
We stay together and go in style
Things get a little bit wild everytime we kiss
So from what I've heard about love, this ain't it

'cause love can break your heart I've heard
Drive you to drinkin' crazy or worse
Talk about trouble, love is at the top of the list
But girl you know we fit like a glove
We're side by side when push comes to shove
From what I've heard about love, this ain't it

I've seen it in the movies, read it in the books
Hearts goin' under everywhere you look
Fire's burning out, but baby me and you
We're the exception to the rule

'cause love can break your heart I've heard
Drive you to drinkin' crazy or worse
Talk about trouble, love is at the top of the list
But girl you know we fit like a glove
We're side by side when push comes to shove
From what I've heard about love, this ain't it

Yeah from what I've heard about love, this ain't it yeah
Yeah from what I've heard about love
No from what I've heard about love
Yeah from what I've heard about love no no this ain't it
