[Chorus: Guru]

This is history right here in the makin
So call this timeless
And we're bound to keep your mind elevatin
So this here is timeless
This is pure original innovation
So call this timeless
This is somethin to give you inspiration
So this here is timeless

[Guru]

Timeless, priceless, survive any crisis
Born to carry on, now we on just like this
It's quite crisp, the way the tune hits your stereo
These two brothers right here gettin props, everywhere
we go
More potent than any herbal essence
Ill grooves verbal lessons
Dominant, prominent, eternal blessings
Never underestimate the weight of the force
It's actual, classical, natural resource
Plus we manage to tear down and damage
any walls they try to place around us on this planet
I never slack I never lack cause I'm your highness
And this type of thing right here kid is timeless

[Chorus]

[Guru]

Just caught the fresh-cut baldie, my peoples call me
Guru, the man, yes the one with all the
J-A-Z-Z, Y type essence
Deep type lessons, the sun moon crescent
Divine perspective, of the life we live
Our time is collective, of this music we give
Through the errors of our colorful struggle
comes the strength of a people so powerful, so
thorough
Enough to be diamond-like, despite dirty conditions
Check how we put it down, respect this worth rendition
Never before, have you felt such energy

The flyest combo, so feel our chemistry

[Chorus]

[Guru]

Feast your eyes as I uniquely surmise
+Jazzmatazz+ represents real deep ties
Traditional, almost ritual is my lyrical
Soon your spirit will become more conscious when you
hear it you'll
give it up for our +Streetsoul+
We reach y'all, we're addin on just like a sequel
Been down and up, so I'm roundin up
mad troops new recruits O.G.'s and up
Me and my right hand man Mr. Hancock make
landmarks
In foreign terrortories true warriors, stand tough
Two livin legends with the gifts of seven
Grab your glass as we pour one more sip of heaven

[Chorus]
