Come on, take a step towards me  
So you can figure me out  
I've been hoping and praying for a single way  
To show you what I'm all about  
And I know, and I know this is the only way of pleasing  
the crowds  
But when this is over and done with and we walk away  
There should be no doubts

So let's get a little closer now  
Let's get a little closer now

You say, you say that we're all tied up  
And wrapped around in useless, useless states of mind  
But at the same time we're still young  
We have the time to realize that we were wrong

Come on love run with me  
Get the hell out of this town  
So we can get a better feel for each other  
I'll take you, back to, when you  
Remembered how you used to  
Just live your life a little for me  
Take the time to let it go  
Step away and watch me grow

So let's get a little closer now  
Let's get a little closer now

You say, you say that we're all tied up  
And wrapped around in useless, states of mind  
But at the same time we're still young  
We have the time to realize that we were wrong

You can stay if you want to  
And I write to you and tell you how you've always been  
so special to me  
You can stay if you want to, and I'll try  
You can stay if you want to  
And I write to you and tell you how you've always been  
so special to me

You can stay if you want to, and I'll try

To keep you close to me (x3)

You say, you say that we're all tied up  
And wrapped around in useless, states of mind  
But at the same time we're still young  
We have the time to realize that we were wrong
